## Enhance your Speaking and Performance Techniques

With **Elizabeth E. George, MA, CSP**

A Keynote Presentation for Speaking and Performing Audiences

A session specifically designed to enhance speaking or performance techniques – whether virtual or face-to-face. The stage is a demanding master and brings extraordinary pressure to speakers and performers. Are you a new politician, community service organization president, musical performer or any other individual required to not only be able to display the skills you've acquired over a lifetime but ALSO relate to the audience at the same time?

*You don't dare show up unprepared!*
