

The Power of Point

Taking Control of Professional Success

With **Elizabeth E. George, MA, CSP**

Creator of *The Compatibility Code*

A Keynote Presentation for Business & University Audiences

Your reason, Your focus, Your Point

In a world that tells us we can be anything — success instead demands that we become something, someone focused and on target.

The ability to create your mental posture is often the defining difference between excellence and average.

What if Success was a Formula?

What if there was a pattern that created a consistent route to your goal achievement?

The compelling message of the Performance Code Pyramid© is that with a solid focus on your mental posture, your goal and the use of this landmark process combined with steps Olympians practice to reach top scores, consistent performance success is possible. When we believe in the power of our goal, we are willing to be coached, apply success principles, and ultimately improve productivity and performance.

Expected Outcomes:

- Increase belief in yourself and your ability to achieve a desired goal
- Understand yourself which leads to understanding others
- Learn the three stages of performance success
- Immediately apply the formula to your goals
- Accomplish more by doing less!

Audiences

- Entrepreneurs and Business Managers
- Chambers of Commerce
- University students and personnel

Delivery Formats

- Keynotes
- Concurrent Sessions
- Half Day Seminars
